Forecast for today, Wednesday 08.07.2026

Sun and clouds

Reliability: 80 %

Forecast for today

Caught between a high-pressure system over Western Europe and a low-pressure system over the Baltic States, the Alpine region is experiencing a strong and partly humid north-westerly flow. This afternoon, the weather will remain partly cloudy with sunny spells. A few raindrops are also expected on the main ridge as evening approaches. A northerly foehn is blowing in many valleys. Maximum temperatures between 26° and 33°.

Outlook for the next days

Friday 10.07.2026
 11° / 20° | 27° / 34°

Friday will also bring plenty of sunshine in the first half of the day, although a thunderstorm in the south cannot be entirely ruled out in the afternoon.

Saturday 11.07.2026
 12° / 20° | 26° / 34°

On Saturday morning, there will be widespread sunshine, whilst a few thunderstorms are likely to develop in the afternoon.

Sunday 12.07.2026
 12° / 19° | 27° / 35°

Sunday will be sunny, stable and hot once again.

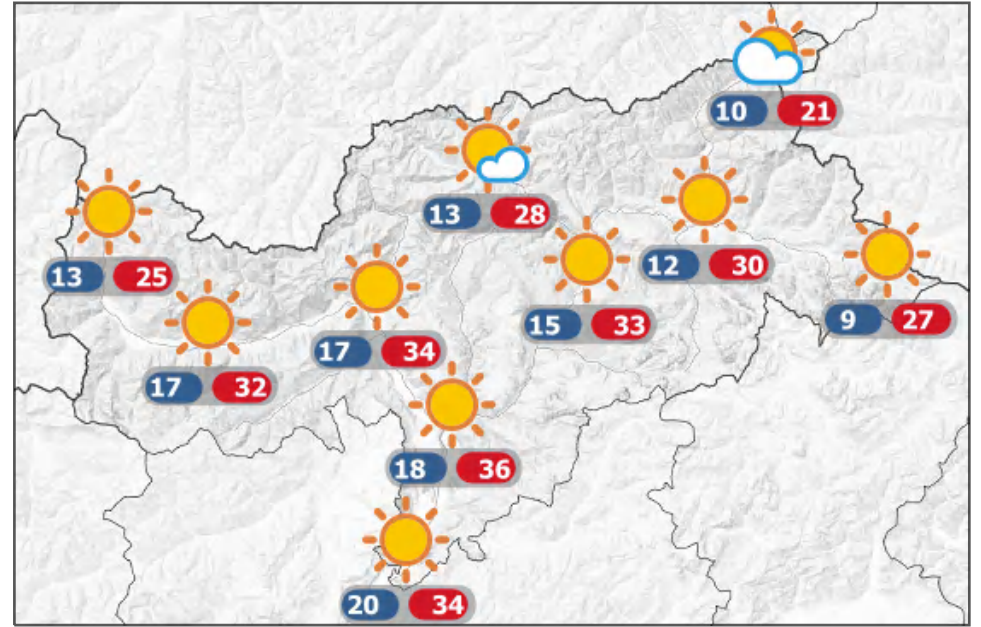

Monday 13.07.2026
 12° / 20° | 27° / 35°

The sunny weather will continue on Monday as well.

Forecast for tomorrow, Thursday 09.07.2026

Sunny and hot

Reliability: 80 %

Forecast for tomorrow

A high-pressure system is bringing a sunny and hot summer's day. Across the region, the sun is shining from a mostly cloudless sky, as the last of the morning clouds are quickly clearing. The north foehn will continue, particularly in the northern valleys. Temperatures will rise a little further, reaching between 27° and 35°.
