

South Tyrol weather bulletin Sunday, 23.08.2026

Forecast for today, Sunday 23.08.2026

Mostly sunny

Reliability: 80 %

Forecast for today

A weak area of high pressure will influence the weather across the Alpine region. After morning patches of some low stratus clouds clear, the sun will shine widely. A few cumulus clouds will develop in the afternoon, but the risk of showers will remain low. Temperatures will rise to highs of 24° to 30°.
