Forecast for tomorrow, 25.05.2026

Lots of sunshine

Reliability: 90 %

Precipitation: 0.4 mm Precipitation probability: 5 %
 Zero degree level: 4000 m Snow level: 3500 m

A strong high-pressure system centred over the British Isles is determining the weather in Central Europe. The sky will be cloudless in the morning. During the afternoon, a few cumulus clouds may develop, but they will remain harmless. Temperatures will be summer-like, with the freezing level rising to around 4000 m.
