

# Mountain weather bulletin

## Western Alpine Crest - 24.05.2026

### Forecast for today, 24.05.2026

Sunny and warm

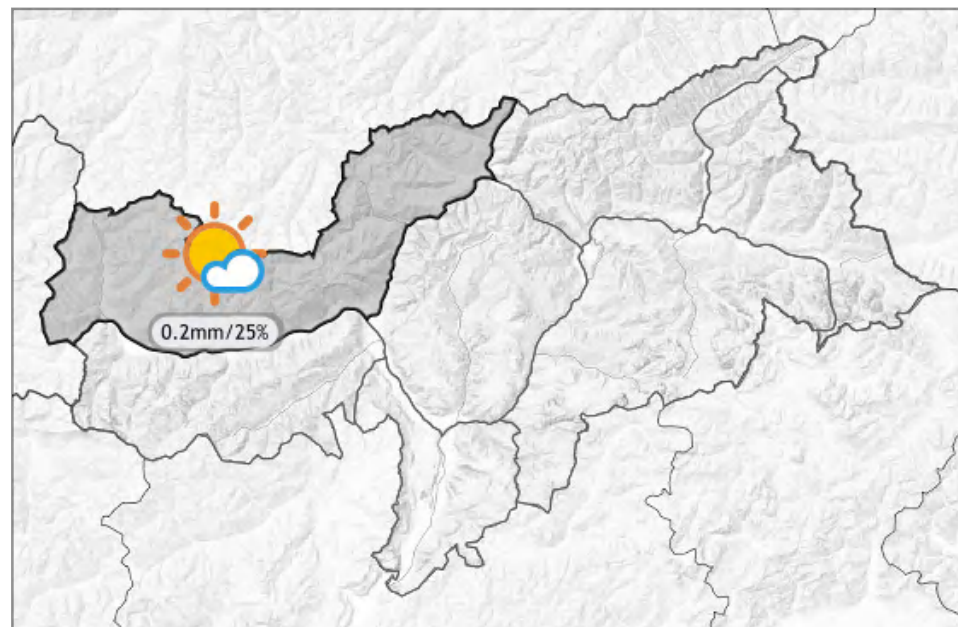

Reliability: 90 %

Precipitation: 0 mm      Precipitation probability: 10 %  
 Zero degree level: 3800 m      Snow level: 3500 m

The strong high-pressure system continues to dominate the weather. There will be hardly any clouds in the mountains until past midday. A few cumulus clouds may form in the afternoon, but showers are unlikely.

### Forecast for tomorrow, 25.05.2026

Lots of sunshine

Reliability: 90 %

Precipitation: 0.2 mm      Precipitation probability: 25 %  
 Zero degree level: 4000 m      Snow level: 3600 m

A strong high-pressure system centred over the British Isles is determining the weather in Central Europe. The sky will be cloudless in the morning. During the afternoon, a few cumulus clouds may develop, but they will remain harmless. Temperatures will be summer-like, with the freezing level rising to around 4000 m.
